NEW RUNNING TOTAL		

THREES: COUNT THEM SEPARATELY

Red threes: +100 each, or +800 for all four, if the team opened. Otherwise subtract the same amounts. Black threes left in hand cost 5 each.

BEFORE YOU CLOSE THE ROUND

One canasta is required to go out. Count both partners' remaining cards. Reaching 5,000 is checked after the round; compare both team totals.

Card values: Joker 50; Ace and 2: 20; 8 through King: 10; 4 through 7: 5; black 3: 5. Red threes use the special rules above. Add positive rows, subtract penalties, then add the previous running total. This paper worksheet does not calculate automatically.
